YAVUZ MERT

Jr. Full Stack Developer(.Net)

My passion is learning new things, sharing knowledge ,so I climbed the first steps of my career as a teacher. These days I believe the most important language of our time and the future will be software and technology ,so I wanted to focus more professional on software. I am taking the master's degree education on Artificial Intelligence and at same time I am taking full stack .Net developer course from Bilge Adam Academy and I believe to creating about new values.
